Correction to Trading Statement

31 July 2002

Correction

The Issuer advises that the following replaces the Trading Statement announcement released today at 07:00 under RNS number 3300Z.

In its announcement earlier today, Selfridges referred to the 25 weeks ended 13 July 2002 in error. The trading statement in fact covers the 25 weeks ended 27 July 2002. All other details remain unchanged. A corrected version follows below.

Background

In order to comply with best practice and to provide regular and timely trading information, Selfridges intends to release an update on trading each year following the end of the Summer Sale. This is the first such statement and precedes the interim results for the 26 weeks ending 3 August 2002, due to be announced on Thursday 19 September 2002.

Summary

- Sales for the 25 weeks ended 27 July 2002 were 6% above last year
- Like for like sales increase
 - Oxford Street up 5%
 - Trafford Centre up 14%

Oxford Street

Sales at Oxford Street, up 5%, have been consistently above last year throughout the 25 week period. Menswear, Womenswear and Leisure are all recording strong increases, particularly with the launch of the new Sports department in June.

- has been the primary reason for the increase in the mix of concession sales at Oxford Street to 52% from 46% last year, with consequent savings in branch payroll. The impact of technology concessions has reduced the concession rate by 1.4%.

The margin rate on own bought merchandise is currently slightly above last year.

Trafford Centre

Sales at Trafford Centre, up 14%, continue to record significant increases in Cosmetics, Menswear and Womenswear. Margin rates are expected to be slightly below the previous year due to a minor increase in the mix of concession sales and technology products.

Manchester City Centre

Our third store, in Manchester's Exchange Square, remains on schedule to open in early September 2002.
